Center Fielder's Failure to Report With Wallace Taken as an Indication That He Will Quit Playing Baseball.

That the Browns may lose the services of J. Emmett Heldrick this season is admitted by Manager McAleer. He was perceptibly worried when Bobby Wallace ar-rived yesterday and was not accompanied by Heldrick. The pair live within a few miles of each other and are generally to gether.

Heldrick's failure to arrive was taken as an indication by the fans who filled the foyer of the Southern Hotel that the center fielder will not be bere this year.

Should Heldrick retire from the game it will require an entire change in McAleer's plans. Jimmy had booked on him covering center field. Now he will have to find mother player to take his place, and this will not be an easy task.

When salaries were being sliced last year Emmett's stipend received an ugly gash, and while it was understood at the time that he was perfectly satisfied with the cut, it has since developed that he con-

the cut, it has since developed that he considers himself worth more than his contract calls for.

Heidrick is said to be very well fixed so far as material wealth is concerned. His family is rated as wealthy in Pennsylvania, and they have been against Heidrick's continuing in the game. Now that Heidrick has some excuse to quit, the chances are that he will announce his retirement. McAleer admitted last night that he would not count on Heidrick being a brown leg until he showed up.

Heidrick's love for the game may finally cause him to return to the fold, but his failure to show up yesterday is taken as an indication that he is through.

"Flerpont," hearing about the wondrous new curves, declares that he has one that will put the test out of the running. Harry calls his new pitching kink the "Bedelia" ball, and says that by a peculiar twist of the wrist be can make the ball sing the first stanza of "Bedelia" while ascending on the batsman. He declares that the "Bedelia" drop has it on Waddell's "loop-the loop," and that it will be the winner among freak deliveries this year. Weaver, who was with St. Louis once as a Cardinal recruit, is back in a suit of Brown, and says the change will do him good.

## A few years ago I was taken with inflammatory Rheumatism, which, though mild at first, became gradually so intense that I was for weeks unable to walk. I

tried several prominent physicians and took their treatment faithfully, but was unable to get the slightest relief. In fact,

my condition seemed to grow worse, the pains spread over my entire body, and from November to March I suffered agony. I tried many patent medicines but none relieved me I pon the advice of a friend I decided to try S. S. S. Before allowing me to take it, however, my guardian, who was a chemist, analyzed the remedy and pronounced it free of pot-ash or mercury. I felt so much better after taking two bottles, that I continued the remedy, and in two months I was cured completely. The cure was permanent, for I have never since had a touch of Rheumatism, though many times ex-

I had been reading in the newspapers of S. S. S. and decided to try it, and to my joy commenced to get relief before the second bottle was gone. After completing five bottles I was an entirely different man, and felt that I had a new lease on life. The cure in my case has been so wonderful that I shall tell every one of it. S. S. S. not only cured my Rheumatism, but also put my system generally in excellent condition. I have a good appetite, sleep well and Mt. Sterling, Ky. B. M. FRISBIE.

RHEUMATISM comes from poor digestion, stomach troubles, torpid liver, weak kidneys and a general sluggish condition of the system. Food souring in the stomach poisons the blood—it becomes too acid. The liver and kidneys fail to act properly, and the circulation is clogged with impure matter and burning acrid fluids which penetrate and saturate the bones and muscles, joints and nerves, producing the terrible pains and aches and other disagreeable symptoms of Rheumatism. As it originates in the blood and affects the whole system, it will not

do to depend on liniments and other external remedies. Such treatment is helpful, but the blood must be restored to a pure, healthy state before the cure is permanent. When S. S. S. has driven out the impurities and built up the thin, acrid blood and stimulated the sluggish organs to better action, the cure is thorough and lasting. The feverish, excited nerves then are soothed and the muscles relieved of the torturing tension, and the whole system is restored to its former healthy state. S. S. S. contains no potash or alkalies, but is guaranteed purely vegetable. Our special book on Rheumatism will be mailed free to all desiring it. Our physicians will cheerfully answer all letters asking for special information or advice, for which no charge is made.
